Not a good game, extremely boring and the text to speech is horrible for voice acting. I wonder if it gets more fun as the game continues but I couldn't sit through the beginning, too boring.

If this does receive more content, fun levels and better voices I will definitely buy again.. WAY MY MONEY IN THIS PROGRAM.. This is a good game and a good coop experience for two people in story mode. However the game does have some technical issues for which I am posting fixes below:

Crashing:

To fix this, you need to uncheck (disable) "Use D3D12" in options on the launcher.
You also need to set screen mode to "Full Screen Borderless Window" which is also in options on the launcher.

Sound Distortion:

In the launcher, turn off "Audio Reverb Quality."

With these fixes, the game should run fine for you.

It's a good game with a range of difficulty settings which make it easy to get into.

Some of the voice acting is fairly cheesy but it's still a good satisfying, user-friendly WWII adventure game with story coop for two players.. I'm a beast. Love this game just a simple fun game to play to relax. Eyes hurt from seeing Red a lot, but it was fun for what I played of it. I recommend it.. The only thing I can compare it to is Surgeon Simulator. But bad.. surprisingly neat

they over complicated the game play to the point where even in very easy mode the game is unwinnable.

the fact is it is easy for the developers to play a game they made because they know every mill and cranny to the game. but what most developers don't realize is not every one is into over complicated games where you die too quickly and easily especially in very easy mode which is for the new players.

it wasn't a bad game visually but the gameplay itself was as a matter of fact a huge let down and I'm very disappointed with them.

I'm sorry but a game that's unwinnable is an insult to gamers who spend their time and money buying a game that they themselves want to win quickly. this is also why people buy arcade style games in the first place as a (5 mins) meditation to escape the real world and the last thing they want to have is being constantly blown up and getting stressed out from it

personally this game needs to go back to the drawing board while visually it's good the gameplay itself was an insult to gamers everywhere so for these reasons I have to give Psychodelya a personal rating of 1/10. A funky casual game with some quality music.

You play as a small blue character swimming around to the beat of the music whilst following a small storyline, you have obstacles to get by and a few puzzling situations which are not difficult to figure out, the path in which you take is also pretty obvious, but the music makes the game which is enough to keep you entertained for a couple hours or more.

Graphics are great, controls are simple enough to use as well, overall I like it and it is a good casual game to add to your collection.. If it was for pure gameplay I would recommend this product without hesitating, but some parts of the game are just so unbearable that I would give this a not recommended.

First, the controls are used to create an artificial difficulty. A map of square edges using the arrow keys to navigate should be easy to control, but the game moves your ball 3 spaces per arrow click. Which means you have to give diagonal inputs to move around and will often still miss your turn or take the wrong path.

Second, the choice of backgrounds at times is just beyond hideous. A few levels I raced through just to get a different background, while others gave me a splitting headache. There should be a seizure warning attached to this game for some of the background choices (gray background with light green diagonal lines).

It's rare to see a basic "easy win" game crushed into the ground by the design team.. Is simple, it's retro, it's panda in space! :D I love a character design <3

The price is good, so go ahead and buy it!. A real joy to play!

Not long -or difficult- enough to get bored, beautiful music and eye for detail.

The drawings, funny sounds, story and the fact this game is for free show the love put into this project.

Perfect for a rainy afternoon!
